

# AM153541MTL

## Overhead Round Shower

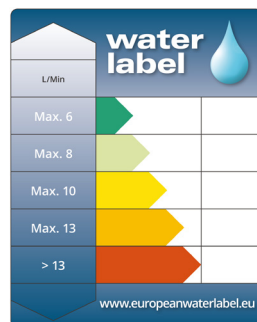

# Metlex

PROFESSIONAL BATHROOM AND  
WASHROOM ACCESSORIES

Compatible with all standard  
 $\frac{1}{2}$ " B.S.P. threaded fittings.

Includes an optional flow limiter for water economy at high pressures and a low pressure cartridge to ensure a comfortable shower even at 0.1 bar water pressure. For use with a shower arm or a shower panel.

Do not use the water saving device with electric showers.

The Water Label litre per minute flow rate is only applicable when the water saving device is fitted.

### Easy to Install

1. Remove the existing shower head and clean the threads of the nut.
2. Position the washer supplied between the new shower head and shower arm or panel to ensure a watertight connection.

### Easy to Clean

- This shower head features rub clean nozzles which are easy to unblock, helping to keep limescale build up to a minimum.
- To clean, simply rub the surface of the shower head gently in a clockwise direction with your thumb to break away any hard water deposits which could affect the shower's performance.

### General Safety Advice

- For safety and convenience do not use with water above 65°C or with excessively high water pressure (max 50psi/3.5 bar).
- To avoid the risk of scalding you should always check the water temperature before entering the shower.
- Always take care when using hot water, especially with children and NEVER leave a child unattended in the bathroom.
